Dear Mr. Hedberg:

Mr. Ronald Terry has submitted the attached amendment to his Notice. He is proposing to place signs at the entrances to his site and to place a portable office/lab facility on the existing pad area. Our file number for this operation is UTU-67102. Mr. Terry is currently in the process of applying as a Small Mine Operation, so I do not know what the UDOGM case number is.

Neither the signs nor the portable facility will require any significant surface disturbance.

Comments concerning this proposal need to be submitted as soon as possible. If you have any questions or comments, please contact me at this office at extension 205.

Sincerely,

Larry Gore  
Acting Area Manager

We have experienced a loss of some estimated 20+ tons of ore grade materials from our claims due to mineral trespass.

Primarily because of this loss and other unauthorized pilfrage activities; we request the erection and placement of corporate indentification and warning signs to hopefully eliminate all possible future illegal activities.

Also we would like to place on our millsites area a facility to accomodate technical instruments and a mine office.

Thank you for your cooperation in these matters.

Sincerely,

*Ronald Terry*
